

Buy Musical Instruments From Musicians

The purchase of a musical instrument is a transaction that should be attended to with the greatest of care and economical consideration. It is a transaction that has to do with the home, in most instances, and what effects the home moulds largely the better temperament and soul-power of a community. The musical instrument in the home is the ever present entertainer and it should be sweet, mellow and voluminous of tone. It should also be a piece of home furniture of lasting quality and rare beauty.

Musicians best understand musical instruments and, if they are honest dealers, they carry the best possible line of instruments commensurate with prices that fit the average home. We profess just such careful consideration and gladly stake our reputation as musicians and "on the square" dealers in the purchase and sale of Pianos and Player-Pianos.

THRIFT STAMP CAMPAIGN ON

Eight Hundred Cities and
Towns to Open Drive in
Earnest Tomorrow.

Y.M.C.A. ARRANGEMENT

Vast Force of Speakers to
Urge People to Start a
Bank Account.

NEW YORK, Feb. 2.—A nation-wide thrift campaign begins tomorrow in 800 cities and towns of the United States by the Young Men's Christian association. Its object is to prepare the millions of young men in America for the drastic economic changes that are expected to occur in every belligerent country with the coming of peace.

An entire week will be devoted to the task of enlightening wage earners as to the necessity of adjusting themselves to certain conditions brought about by the war. In thousands of churches the Y. M. C. A. has arranged for the privilege tomorrow of sermons advocating the conservation of those things essential to bring victory to American arms.

Vast Force of Speakers.
On Monday a vast force of speakers in shops, schools, lodges and community centers, will emphasize the value of a bank to a town. The keynote will be "start a bank account today or make a deposit to one already in existence."

On Tuesday and Wednesday efforts will be concentrated on organizing war savings stamps clubs among employees in industry.

"Thrift day in the home" is planned for Thursday. On that day speakers will address people in shops and elsewhere on "the value of owning a home" and the need of economy in the kitchen.

On Friday speakers will talk upon "what insurance the average man should carry."

"Pay as You Go" Day.
Saturday will be "pay as you go" day and will be directed at merchants and other business men as well as at wage earners. The object will be to impress upon all the necessity at this time of paying all bills promptly.

During the week it is planned to have six "rummage days" on one of each everybody will be urged to bring old waste paper, rags, metal, rubber and other salvage to certain stations and receive either cash or war saving stamps for them.

JEALOUSY LEADS TO DEATH BATTLE

Uncle Kills Nephew in a Duel
in a Lonely Montana
Cabin.

MISSOULA, Mont., Feb. 1.—A battle to the death occurred a day or two ago in a lonely cabin south of Thompson Falls in western Montana, and his nephew, Arthur M. Soule, a rancher, and his nephew, Benjamin H. Soule, who was accused by the older man of breaking up his home, Uncle and nephew fought grimly while the woman in the case, forced to witness the struggle, crouched against the wall of the room in deadly terror, fearing each moment that a shot from one or the other would end her own life.

The older man, having accused his nephew of improper relations with his wife, started to fight with his fists, according to the story told by the woman. The younger man, during the struggle that followed, managed to secure his revolver and fired the first shot. The uncle picked up his own rifle, and retreating to what shelter the cabin afforded in the way of furniture, the men fired at each other, each striving to inflict a telling wound. Finally, with a shattered shoulder, the older man crawled across the floor to where his nephew lay with a broken leg, and fatally clubbed him with the butt of his rifle.

Arthur Soule then staggered out open the road and was picked up some distance from the cabin by a passer-by, who placed him in his sleigh and carried him to Thompson Falls, where he is now in a hospital. Benjamin H. Soule lived an hour or two after his uncle left, but the ministrations of his aunt failed to relieve his sufferings, and he died before nightfall.

Friends of the principals say that the uncle's suspicions were absolutely groundless and that he was insanely jealous.

GENERAL STRIKE IN AMSTERDAM COMING

AMSTERDAM, Feb. 2.—While the police and military are preparing for a general strike in Amsterdam on Monday there are indications that the movement probably will not assume serious proportions. The members of the moderate unions have issued a proclamation urging their fellow members not to follow the dictates of the leaders of the Syndicalists who are said to desire to spread a strike through the country.

The strike movement is said to be backed by Socialists with Bolshevik tendencies and is declared to be an outward sign of discontent of the working classes arising out of privations due to the war.

Financial Review Shows Improvement

NEW YORK, Feb. 2.—Wall street threw off this week much of the burden caused by the government's conservative regulations. Improvement in the eastern transportation system and an easing of the fuel and labor short-

Pronounced Impetus in Trade.

Trading in the last half of the week received pronounced impetus on the bull side, the movement concurring with President Wilson's message to the western farmers. Peace talk large-

ly superseded domestic economic problems but due allowance was made for conflicting foreign advices.

Money on Call E asy.

Money on call was relatively easy, but time loans, although quotably lower, were actually unchanged with a great scarcity of supplies. Foreign exchange showed no appreciable alteration except for recurrent heaviness of Italian rates. Trading in Europe remittances is expected to become nominal under federal supervision.

Girl workers in the English munition factories turn out some work faster than it is done by men workers in this country.

HIGH SCHOOL HAS NEW FRONT DROP

The class of '17 at the Ogden high school yesterday presented the school with a new front "drop" for the stage. It is a lively scene of football playing and was painted by Amos Larson, a prominent local artist, mural decorator and scene painter.

Miss Grace Jennings made the presentation speech and Principal J. E. Beeson spoke for the school, thanking the class for its patriotism and good judgment in selecting such a gift. The drop was hung by Billy Lee, the veteran Ogden stage director.

PSYCHIC TREND MUST BE UNDERSTOOD

Monarchy and democracy, doubt and faith like many other trends of our thought and conduct are based on fundamental temperaments. To understand the political, religious or moral factor of any life this basic psychic trend in its character must be understood. That which psychology has last told about religion and government, that which underlies New Thought, Christian Science, pacifism and loyalty is the theme Sunday night

in Presbyterian church. Music will be:
Prelude Bach
Miss Louise Pierce
Violin offertory, Andante Greig
Miss Margaret Toy
Solo, "Angels Ever Bright and Fair" Handel
Mrs. Agnes Warner
Postlude Wagner

KAISER NAMES A COLONY GOVERNOR

AMSTERDAM, Jan. 25.—(American Press Correspondence)—The German emperor has appointed Privy Councilor Haber to be governor of the German colony of New Guinea. The Cologne Volk Zeitung explains: "It may sound curious that a governor should be appointed to a region which we have lost during the war, but the fact is thus clearly emphasized that Germany has no intention of renouncing her colonies."
